AFAI-1

System name:

Federal Acquisition Personnel Information System.

System location:

Federal Acquisition Institute (FAI), 5001 Eisenhower Avenue, Alexandria, VA 22333.

Categories of individuals covered by the system:

Personnel of Federal agencies (civilian and military) involved in Federal acquisition and logistics management. Such individuals are generally employed in the Business and Industry (GS-1100); Equipment, Facilities and Services (GS-1600); Quality Assurance, Inspection and Grading (GS-1900); Supply (GS-2000); and Transportation (GS-2100) General Schedule occupational fields, or equivalent military fields.

Categories of records in the system:

Records contain biographical data on individuals such as name, social security number (SSN), birth date, past and present pay levels, position title, occupational series, training, and past personnel actions. Data also include employee's work such as description of tasks, types and number of contracts assigned.

Authority for maintenance of the system:

Title 41 U.S.C., Sections 404, 406, and 411, which established the Office of Federal Procurement Policy (OFPP), OMB, and requires executive agencies to furnish such Office access to all information and records determined to be necessary for the performance of its missions.

OFPP Policy Memorandum of July 14, 1976, which established the Federal Procurement Institute (now the Federal Acquisition Institute) and delegated responsibility to the Institute for the Government-wide planning, development, implementation and evaluation of programs in procurement research, education and training, and career development.

Memorandum of Understanding for the Sponsorship and Operation of the Federal Procurement Institute (May 11, 1976), which is an agreement between its signatories (at present: 24 Federal departments and agencies) for the interagency sponsorship and operation of the FAI and further provides that the FAI's policies and programs will be under the direction and guidance of a Policy Board comprised of representatives from the FAI's member departments and agencies.

Title 5 U.S.C., Sections 4103 and 4105, which authorize agencies to establish interagency training facilities such as the FAI, and to jointly operate training programs for Government personnel.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The primary purpose of this system of records is to enable the FAI to prepare statistical reports on characteristics of the acquisition and logistics occupations and to periodically contact individual employees for personnel research projects that extend over a period of time (longitudinal studies). The FAI obtains data from employees and the management information systems of its member agencies, applying such data in the development of training, career development, education and research reports and programs.

Automated data processing services are provided FAI by the Bureau of Personnel Management Information Systems, U. S. Civil Service Commission; Defense Manpower Data Center (Alexandria, VA); Air Force Human Resources Laboratory (Lackland Air Force Base, TX); and the US Army Military Personnel Center (Alexandria, VA).

Records at the FAI are used to prepare reports on the acquisition and logistics workforce, addressing: (1) the distribution of acquisition and logistics tasks among Federal occupations, agencies and pay levels, (b) employee perceptions of the relative learning difficulty of each acquisition and logistics task, and (c) the frequency of promotions in acquisition and logistics occupations as compared to other Federal professional and administrative occupations. These reports consist of summary descriptive statistics only. No individually identifiable information on employees is disclosed in the reports. Copies of the reports are therefore made available to Federal agencies, educational institutions, and any other individual who requests general statistical information on acquisition and logistics occupations.

The FAI may transmit lists of names, SSN's, birth dates, organizational mailing addresses and phone numbers of individual employees to the Federal agencies listed below. Purposes served thereby are to identify specific individuals who should be included in agency reports on members of the acquisition and logistics workforce and/or to locate specific individuals for personnel research. No individually identifiable data will be disclosed that would permit an individual's employing agency to make a decision about the individual.

Department of Energy
National Aeronautics and Space Administration
General Services Administration
Department of Health, Education and Welfare
Department of Justice
Department of Interior
Environmental Protection Agency
State Department
Veterans Administration
Department of Transportation
Department of Treasury
Department of Agriculture
Department of Housing and Urban Development
Department of Commerce
Small Business Administration
United States Civil Service Commission
Department of Defense
Department of Labor
National Science Foundation
Office of Management and Budget

The above agencies are signatories to the Memorandum of Understanding for the Sponsorship and Operation of the FAI. No individually identifiable information is furnished outside the agencies enumerated above.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

At FAI: paper records and computer printouts.

At U. S. Civil Service Commission; Defense Manpower Data Center; Air Force Human Resources Laboratory; and US Army Military Personnel Center: magnetic tapes and discs, and computer printouts.

The FAI may, on occasion, employ contractors to print questionnaires, transfer questionnaire responses to magnetic tapes and discs, and analyze responses. No such contractor shall be allowed to retain any data on individual employees for longer than one year, and any such contractor shall be obligated to observe the policies and practices of this notice and in Army Regulation 340-21 for storing, retrieving, accessing, retaining and disposing of records in this system.

Retrievability:

By name, SSN, and date of birth.

Safeguards:

Manual records are stored in buildings which employ security guards; records are accessible only to authorized personnel.

Automated records are under the control of a cardkey access system which requires positive identification and authorization, and are located in a designated controlled area to which access is limited to selected personnel only. Output products bear the annotation: 'This document contains Privacy Act information and will not be released unless request meets the requirements of AR 340-21'.

Retention and disposal:

Records are retained indefinitely by FAI for longitudinal studies of changes in the acquisition and logistics workforce. Re-examination of the same population will occur at four year intervals (approximate) to update records on work assigned employees. Biographical data are updated annually through the acquisition of data from the Central Personnel Data File of the U. S. Civil Service Commission and agency personnel management information systems.

System manager(s) and address:

Director, FAI, 5001 Eisenhower Avenue, Alexandria, VA 22333.

Notification procedure:

Information may be obtained for the System Manager.

Record access procedures:

Requests from individuals should be addressed to the System Manager.

Written requests should contain the individual's full name, SSN, birth date, and current address.

Contesting record procedures:

The FAI is guided by the Army's rules for access to records, contesting contents and appealing initial determinations. These are contained in 32 CFR Part 505 (Army Regulation 340-21).

Record source categories:

The Civil Service Commission's Central Personnel Data File is the primary source of biographical data on members in this system of records. The primary source of data on work performed by an employee is the employee to whom the record pertains. This information is collected through questionnaires which are re-issued to employees on a four year cycle to update their records. Additional information may be obtained from management information systems of the individual's employing agency, from professional societies (which would report only the names and other identifiers of individual Federal employees they have certified as professional acquisition or logistics specialists), and from educational institutions (which would report only the names and other identifiers of individual Federal employees who have attended educational programs in the fields of acquisition and logistics management) on an annual basis.

A0224.04DAIG

System name:

224.04 Inspector General Investigative Files

System location:

Primary System, Office of The Inspector General and Auditor General, Department of the Army.

Decentralized Segments: Washington National Records Center, Suitland, Maryland; US Army Inspector General offices and records holding areas located worldwide. Official mailing addresses are in the Department of Defense directory.

Categories of individuals covered by the system:

Any person who has been the subject of, witness for, or referenced in an Inspector General investigation.

Categories of records in the system:

File contains Inspector General reports of investigation which normally contain the authority for the investigation, the matters investigated, a narrative report, documentary evidence, and transcripts of verbatim testimony, or summaries thereof.

Authority for maintenance of the system:

Title 10 U.S.C., Sections 3039 and 3040.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The purpose of an Inspector General investigation is to determine the facts and circumstances surrounding the allegation(s)/problem(s). The information is assembled in report format and presented to the official directing the investigation.

The report of investigation may be used by any Department of Defense organization which has an official interest in the matters under investigation. The information contained therein may be used to take corrective action or as a basis for making decisions concerning: Department of Defense/Department of the Army policy; personnel actions; legal, fiscal, logistic, operational, public information, personnel management, and procurement matters.

The report of investigation may be forwarded to the Department of Justice if it contains evidence of possible criminality not within the jurisdiction of the Uniform Code of Military Justice. The Department of Justice will review the report to determine if further investigation by that agency is warranted.

The report of investigation may be used as a basis for summaries or briefing presented to Members of Congress. Members of Congress may use the material to respond to constituents, or to enlighten themselves on matters of concern and interest to them.

The report of investigation may be used as a basis for responses to agencies in the Executive Branch of the Federal government. This information may be used as a basis for responses to concerned citizens and other individuals/organizations querying the Executive Branch.

All or part of reports of investigation, subject to the rules of evidence, may be entered as evidence in court proceedings.

The report of investigation may be provided to appropriate individuals/organizations under the provisions of the Freedom of Information Act.

The report of investigation may be used as the basis for responding to press queries.

Reports of investigation may be analyzed to determine trends within the Army.

Nonsensitive portions of reports of investigation may be used as instructional vehicles in certain Army schools to inform students about lessons learned as a result of the investigation.

The report of investigation may be used as reference material in other reports of investigation.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in hard cover binders and/or file folders.

Retrievability:

Reports are accessed and retrieved by reference to the case name which is normally derived from either the nature of the allegation, the geographic location of the investigation, or, in some instances, the name of the subject or the complainant. Case files are frequently, but not always, assigned a file code number which is cross-referenced with the case name. The file code number, if assigned, is used to administratively file the case, chronologically by calendar year.

Safeguards:

Primary System: Building employs security guards and access is limited to authorized personnel. Files are stored in locked containers and access given only to persons with an official need to know.

Safeguards for decentralized segments vary but should include, as a minimum, the storage of the reports in locked containers and access given only to persons with an official need to know.

Retention and disposal:

Reports of investigation conducted by The Inspector General and Auditor General, Department of the Army will be stored permanently. Reports prepared by Inspectors General of other Department of the Army agencies/organizations will be destroyed 10 years after completion. All other Inspectors General reports will be destroyed 3 years after completion.

System manager(s) and address:

The Inspector General and Auditor General, Department of the Army, the Pentagon, Washington, DC 20310

Notification procedure:

Requests should be addressed to the SYSMANAGER.

Because reports are seldom filed by surname or social security number (SSN), requests to determine if the system contains a record about requester should include full name, rank (if applicable), SSN (if applicable), address or Army Post Office (APO) if applicable, approximate date of investigation, subject of investigation, location of Inspector General office conducting the investigation, and the requester's role in the investigation.

Information may be obtained from:
HQDA (DAIG-IN)
Room 1D731
Pentagon
Washington, DC 20310
Telephone: Area Code 202/695/7385

Record access procedures:

Because reports are seldom filed by surname or SSN, requests from individuals should be addressed to: Headquarters, Department of the Army (DAIG-IN), Room 1D731, Pentagon, Washington, DC 20310.

Written requests for information should include full name, rank (if applicable), SSN (if applicable), address or APO (if applicable), approximate date of investigation, subject of investigation, location of Inspector General office conducting the investigation, and the requester's role in the investigation.

For personal visits, the individual should be able to provide some acceptable identification; that is, driver's license, employing office's identification card, and give some verbal information that could be verified with his 'case' folder.

Contesting record procedures:

The agency's rules for access to records and for contesting contents and appealing initial determinations may be obtained from the SYSMANAGER.

Record source categories:

The nature of investigations varies greatly, and the source of the evidence required is not predictable. Previous sources have included: testimony of witnesses; correspondence/records maintained by organizations/ individuals party to the matters being investigated; military personnel files; military pay records; security dossiers; newspaper clippings, and other media material; photographs; reference material/ correspondence originating in Department of the Army staff agencies and commands, and other Federal, State, local, and foreign agencies; research notes/documents obtained from reference libraries and records custodians; and other materials in the public domain.

A0224.05aDAIG

System name:

224.05 Inspector General Complaint Files

System location:

Assistance Division and Central Files, Office of the Inspector General (OTIG), Department of the Army (DA), Washington, DC 20310.

Decentralized Segments: Offices of all command Inspectors General, Army-Wide.

Categories of individuals covered by the system:

Any Person, Civilian or Military, who presents to an Inspector General in writing or in person a Complaint/Request for Assistance.

Categories of records in the system:

Record copy (hard copy) contains the Inspector General Action Request (IGAR) or letter submitted to an Inspector General requesting assistance and all related reports of investigation, inquiries, studies, memoranda and reference material and final replies.

Automated data elements of record contain: Case number, includes fiscal year and sequence number; case name, to include first, last and middle initial of complainant; component of complainant, the functional relationship to military, DA civilian, or other military service; source of complaint, such as the serviceman, his dependent, relative, or DA civilian. The recipient, or the Agency which received the case before it was referred to the OTIG, DA Command or Staff Agency against whom the complaint was made; date case was received by OTIG; suspense data to control information gathering; action officer in OTIG; command to which case referred to have investigation or inquiry conducted; type of allegations made by complainant; number of days for case processing; date reply sent to complainant; and whether complaints were justified/unjustified.

Authority for maintenance of the system:

Title 10 U.S.C., Sections 3039, 3040 and subsection 3065(a) provide for and describe the mission of The Inspector General and Auditor General of the Army and his deputies and assistants. Provides for the detail of commissioned officers as Inspectors General.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The purpose is to obtain sufficient information by investigation, inquiry, research of existing historical data; to review and process the data to insure that appropriate action was taken to substantiate or refute allegations presented, and to correct deficiencies.

The purpose of the automated data elements file is to provide a management system to report categories and frequency of complaints and trends by type and command and to improve processing of correspondence and thereby improve responsiveness of the Inspector General assistance function.

Users are Inspectors General Army-wide; Army Commanders at all levels, DA Staff Agencies, Members of Congress, and other government agencies, when determined by The Inspector General to be in the best interest of that agency.

Used to answer complainants or respond to requests for assistance, advice or information. After consultation with appropriate staff judge advocate may be referred for use in trials by court-martial or other military justice matters, as authorized by the Uniform Code of Military Justice. Used by commanders to correct deficiencies found during inquiry/investigation.

User of automated data file is the Office of The Inspector General, DA. Automated data is used to provide weekly and quarterly reports to elements of OTIG and the Army Staff concerning the categories and frequencies of the Inspector General Action Request and trends. Used as a management tool to improve responsiveness of OTIG in its assistance function. It is not used to associate allegations with complainant and does not divulge findings or recommendations as a result of an inquiry.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in file folders.
Computer magnetic tapes.

Retrievability:

Filed alphabetically by last name of requester for assistance or information.

Automated data information is filed by sequential case number or case name.

Safeguards:

Records are maintained in locked areas in locked containers accessible only to authorized personnel who are properly cleared and trained in their release.

Retention and disposal:

IG complaint files are destroyed 1 year following final action, except those which include reports of investigation or inquiry conducted by Inspectors General. IG complaint files containing reports of investigation or inquiry or documents relating to investigations and inquiries conducted by Inspector General will be destroyed according to the level at which the inquiry/investigation was conducted: files which contain an investigation or inquiry conducted by the Office of The Inspector General, DA, will be permanent; files containing an investigation or inquiry conducted by other Headquarters, Department of the Army offices and field commands authorized an Inspector General, that report directly to Headquarters, Department of the Army will be destroyed after 10 years; files containing an investigation or inquiry conducted by any other Inspector General element will be destroyed after 3 years.

Automated record kept on active file 1 year then transferred to a history file and destroyed electronically after 5 years.

A0225.01aDAPE

System name:

225.01 Military Police Management Information System (MPMIS) - Correctional Reporting System (CRS)

System location:

Primary System: Law Enforcement Division, Human Resources Development Directorate, Office of the Deputy Chief of Staff for Personnel, Department of the Army, (DAPE-HRE).

Decentralized Copies: CRS is programmed for Army installations; the system will be maintained by the installation provost marshall office (PMO). Official mailing addresses are in the Department of Defense directory in the Appendix. The CRS will replace command-unique systems at installations where they exist.

Categories of individuals covered by the system:

Any military member confined at any Army confinement facility as a result of, or pending, trial by courts-martial.

Categories of records in the system:

The CRS data are added to the corrections master file. Following output is produced: a daily 4 part prisoner status roster which provides a by name roster showing social security number (SSN), military occupational speciality (MOS), religion, marital status, education level and offense for which confined. Part 1 provides a history of all prisoners confined in the last 24 hours and shows totals by status (i.e., detained, pretrial, detained post trial, adjudged, etc.). Part 2 shows a recapitulation by custody of total number of prisoners in confinement by this category. Part 3 lists all prisoners that departed the facility in the past 24 hours and lists their disposition. Part 4 indicates those individuals in pretrial confinement in excess of 25 days; a monthly status roster showing, by name, all prisoners confined or released for the reporting period. Report shows detailed additional information including totals of new prisoners, total departures, total escapes, total in hospital and totals by custody grade, race, status and such information as total by types or release, confinement less than 30, 60, or 90 days; the semiannual prisoner profile report produces a series of two-dimensional matrices for each type offense and profiles prisoner age, race, education, marital status, and religion for each offense.

Authority for maintenance of the system:

Title 10 U.S.C., Section 3012(g).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The CRS is used to provide, on a daily basis, pertinent information required for proper management of confinement facility population; to provide on a monthly basis, statistical information required by the installation commander provost marshal and confinement facility commander pertaining to the prisoner population, status of discipline and responsiveness of personnel procedures relating to prisoner personnel; to provide the installation with monthly data on the total spectrum of the confinement facility utilization, i.e., population turnover, recidivism, and to identify semiannually, prisoner profiles showing the relationship of particular offenses to age, race, education, marital status and religion. CRS output will be furnished to criminal justice elements outside Department of Defense (DOD) and Department of the Army (DA) when law enforcement and crime prevention functions fall within their jurisdiction or concurrent jurisdiction is applicable. These include local, state and Federal agencies such as the Federal Bureau of Investigation, US Customs Service; US District Courts, US Magistrates; US Federal Marshals, state police agencies, local police agencies; and in oversea areas, host government law enforcement agencies.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

The CRS master file is stored on disk at the installation data processing activity. The CRS data, produced also in three copies, is maintained at the installation correctional facility in file folders.

Retrievability:

Access to the data base/master file is restricted. To receive CRS output personnel must utilize a 'systems control card'. This control card must be prepared for each specific entry and requires unique originator codes. Instructions for creating and using the control card are maintained at two locations; the PMO and the data processing facility. Access to hard copy output is prescribed by installation standard operating procedures (SOP) and policies.

Safeguards:

The data base and output are managed through extensive SOP and policies prescribed in system functional users manuals. Safeguards include: limited output with distribution controlled by the PMO and released only to designated persons; output is controlled at both pick-up and delivery points: the PMO, confinement facility and data processing activity are 24 hour per day operations; consequently, reports are continuously under scrutiny; the confinement facility and the data processing site are considered secure areas with limited access.

Retention and disposal:

Individuals are deleted from the CRS master file upon their departure from the correctional/confinement facility. Certain elements of information, pertaining to the prisoner are posted to a corrections history tape which produces the semiannual prisoner profile report. A prisoner can remain on this history tape for as long as 5 months or until the semiannual report is produced. Once this occurs, he is then deleted from the CRS master file.

System manager(s) and address:

228.11 Memorialization Board Files

System location:

Primary System: Operations Division, Administrative Management Directorate, The Adjutant General Center (i.e., HQDA (DAAG-AMO) WASH DC 20314);

Decentralized segments exist throughout the Army to the installation level.

Categories of individuals covered by the system:

Any individual for whom a memorialization action is recommended or taken. Only deceased personnel are eligible for memorialization, but sometimes living personnel are recommended.

Categories of records in the system:

File contains a record of memorialization actions taken and background information of each, consisting of letters, staff studies and related information leading to a memorialization decision. Also included in the file may be memorialization for record pertaining to processing of a particular action and an information copy of orders announcing that a street, building, installation or similar object or thing has been or will be named after a deceased individual.

Authority for maintenance of the system:

Title 10 U.S.C., Section 3012

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Memorialization board files are used as an essentially decentralized record of memorialization actions taken throughout the Army. When a memorialization action is approved, orders are issued formalizing the approval. (A copy of each order is sent to operations Division where a card is prepared and filed indicating action taken, date, order number and location.)

Files maintained by the approval authority are also used as a source of information from which it can be determined whether

others were considered for a particular action and, by exclusion, those who have not been memorialized.

Unusual cases in the Operations Division file also serve as a source of policy and precedence information.

After an action is approved, records may provide information supportive of publicity and news releases.

Records are also used for historical reference.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in file folders.

Retrievability:

Operations Division: filed alphabetically by last name of those memorialized.

Decentralized segments: filed loosely in a file folder by calendar year in which memorialization action occurred. Accessible by name.

Safeguards:

Operations Division - building employs security guards. Records are maintained in areas accessible only to authorized personnel that are properly screened, cleared and trained.

Decentralized segments: files accessible to records maintenance and managerial personnel.

Retention and disposal:

Records of final approving authority are permanent. In most cases approval authority is delegated to installation commanders for memorialization actions on a particular installation except when a policy exception is required or in major naming cases which must be approved by higher authority. Permanent records are held 5 years in the current files area and then sent to a records holding area from which they are retired to the Washington National Records Center. Records of supervisory, reviewing or other offices are destroyed 2 years after the end of calendar year in which a memorialization occurred or on discontinuance of the office concerned (whichever occurs first).

Box 2828, Washington, DC; US Army Engineer Division, Europe, Army Post Office (APO) New York; US Army Engineer Division, Middle East, APO New York.

Categories of individuals covered by the system:

US Army Corps of Engineers civilian and military employees at locations covered by the system regardless of whether they are employed in the continental United States or overseas; whether employed on a part time, full time or intermittent basis; and regardless of pay plan.

Categories of records in the system:

Files contain employee's travel advance records identified by social security number (SSN). For computation of employee's labor cost, the Finance and Accounting (F&A) Subsystem retrieves 8 of the 62 personal data elements per employee from the Personnel Subsystem files of the Corps of Engineers as follows: name, SSN, pay rates, employing office, organizational breakdown, Fair Labor Standards Act coverage, cost codes and funds (functional designator).

Authority for maintenance of the system:

Title 5 U.S.C., Section 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The employee data elements are retrieved from the Personnel Subsystem of the Corps by employee SSN. These data elements are used to compute and extend the employee labor costs which are charged to the job worked on by the employee identified by cost code and reflected as obligations and expenditures. The computer printouts produced by the common system F&A programs will list the employee labor costs by SSN or name and are used for control and checking costs recorded in accounting records. The accounting records of the F&A Subsystem will identify the employee labor by cost code and/or organization code. Travel advances are recorded and liquidated in the system using the employee SSN. The Corps of Engineers F&A field offices are provided computer printouts which are used to manage and control financial expenditures that will be recorded and updated in the applicable appropriation.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Computer magnetic tape and computer paper printouts.

Retrievability:

By SSN.

Safeguards:

Computers are housed behind locked doors.

Rooms are accessible only to authorized persons possessing a special badge or password.

Unauthorized access to the employee file is precluded through a system of passwords.

The official printouts are used by supervisors, managers, and members of the comptroller's office in carrying out F&A responsibilities.

Retention and disposal:

Corps of Engineers Management Information System Finance and Accounting (COEMIS F&A) files for site audits consist of cost forms as input documents and voucher output listing of employee labor and travel costs. These files are destroyed after 6 years and 3 months. Punch cards that process these data into the computer are destroyed upon completion of General Accounting Office audit.

COEMIS F&A internal or external output files containing this data are destroyed after 30 years.

COEMIS F&A utility files consisting of output reports for maintaining and controlling the F&A Subsystem transactions are destroyed after 5 years.

COEMIS F&A magnetic tape data base files that contain the net result of all transactions processed by the update programs are retained for 30 years.

F&A audit trail tape files contain each valid transaction processed by the update program. These files are retained for 6 years and 3 months.

In addition, claims files on all unsettled and settled claims are retained at Staff Judge Advocate offices at subordinate levels where the claim was filed until they are forwarded to US Army Claims Service.

Categories of individuals covered by the system:

Records pertain to all individuals, corporations, associations, countries, states, territories, political subdivisions presenting a claim against the United States cognizable under the following statutes and Army Regulation 27-20: (a) The Military Claims Act (10 U.S.C. 2733); (b) The Federal Tort Claims Act (28 U.S.C. 2671-2680); (c) The Act of 9 October 1962 (10 U.S.C. 2737); (d) The National Guard Claims Act (32 U.S.C. 715); (e) Title 10, U.S.C. section 2734a and 2734b (NATO claims); (f) The Maritime Claims Settlement Act (10 U.S.C. 4801-4808); (g) Article 139, Uniform Code of Military Justice (10 U.S.C. 939); (h) The Foreign Claims Act (10 U.S.C. 2734), (i) The Military Personnel and Civilian Employees' Claims Act (31 U.S.C.240-243), (j) Claims for Reimbursement under Industrial Security Regulations (DOI) Directive 5220.6) and (k) Nonappropriated Fund Claim.

Categories of records in the system:

Claims Journal and Individual claims index cards: Contain brief synopsis of claims information including name of claimant; claim file number; type of claim presented (tort, maritime, foreign, personnel, etc.); date claim received by the Army; the date of the incident giving rise to the claim; the amount claimed; and if settled, the date and disposition of the claim. In appropriate claims, data on amounts recovered or paid by third parties is included on the card.

Claims files; Contain the claim forms submitted by the claimant; reports of investigation of claims or potential claims; the witness statements; police reports; photographs; diagrams; bills; estimates; expert opinions; medical records and similar reports; and copies of correspondence with the claimant, potential claimants, third parties, and insurers of claimants or third parties, concerning claims or potential claims. When applicable, copies of finance vouchers evidencing payment of the claims are included. Occasionally Inspector General or similar reports will be included in such files.

U.S.ARCS MISO: Provides a record of every noncontractual claim arising from Army activities. Information is maintained on magnetic tape and stored in alphabetical order by fiscal year. Data includes claimant's name, file number, type of claim, date of incident, amount claimed and amount paid, if anything.

Authority for maintenance of the system:

Title 10 U.S.C., Sections 939, 2733, 2734, 2734a, 2734b, 2737; Title 28 U.S.C., Sections 2671-2680; Title 31 U.S.C, Sections 240-243; Title 32 U.S.C., Section 715.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The primary purpose of claims investigative reports and ancillary records is to develop and preserve all relevant evidentiary facts about incidents which may generate claims against the Army. The evidence developed is used as a legal basis for payment of claims, and the amount authorized, or to support a denial of the claim. If the claimant initiates litigation the evidence helps provide a basis to defend the suit. Evidence in the files is also used to provide information to reply to the President, the Cabinet, members of Congress or to General Accounting Office and public or private insurers who may be required to participate in the settlement of claims against the United States or who may be required to reimburse the United States as a subrogee for claims paid. Information is also recorded to insure that the use of appropriated funds is legally correct. The data are also used as a management tool to supervise claims operations at subordinate commands worldwide.

Users include claimants and/or their legal representatives for use in legal action against the Government or third parties for tax purposes (Internal Revenue Service (IRS)) and/or to support or provide private relief legislation; US Department of Justice representatives in deciding disposition of claims files against the Government and for consideration of criminal prosecution, civil court action or regulatory orders; US Court of Claims to support legal actions, considerations or evidence to support proposed legislative or regulatory changes, for budgetary purposes, for quality control or assurance type studies or to support action against a third party; foreign governments for use in settlements of claims under North Atlantic Treaty Organization Status of Forces Agreement (NATO SOFA) or similar international agreements; state governments for use in defending or prosecuting claim by the state or its representatives; Department of Labor for consideration in determining rights under Federal Employees' Compensation Act or similar legislation; civilian and governmental medical experts for evaluation of medical aspects and records and related material; The President, Vice President and members of the Congress in order to provide information upon which to base replies to inquiries from claimants; Office of Management and Budget for preparation of private relief bills to be presented to Congress for its consideration; Government contractors for use in defending or settling claims filed against them arising out of the performance of a

Government contract; and workmen's compensation agencies, federal and local, for use in adjudicating claims.

In Federal Republic of Germany (FRG), Civil Process Section, International Affairs Division, Office of The Judge Advocate, Headquarters (HQ), United States (US) Army, Europe (USAREUR) and 7th Army, Army Post Office (APO) New York 09403, Heidelberg, and decentralized segments at approximately 35 Judge Advocate Offices throughout the FRG to which documents have been forwarded for service.

In Berlin, Office of The Staff Judge Advocate, HQ, US Army, Berlin, APO New York 09742.

Categories of individuals covered by the system:

US Army, US Air Force and US Navy personnel, members of the civilian component of the US Forces and dependents of the foregoing upon whom service is made of documents issued by German civil courts, customs and taxing agencies, and other administrative agencies, governmental and otherwise, which, pursuant to German law, may issue: payment orders; execution orders; demands for payment of indebtedness; notifications to establish civil liability; customs and tax demands; documents assessing fines and penalties; demands for court costs or for costs for administrative proceedings; summonses and subpoenas; paternity notices; complaints; judgments; briefs; final and interlocutory orders; orders of confiscation; notices; and other judicial or administrative writs.

Categories of records in the system:

Copies of correspondence from German courts, bailiffs and administrative agencies forwarding documents for service; copies of German documents forwarded to or between Judge Advocate offices in the FRG for service; copies of forwarding correspondence to or between Judge Advocate offices in the field; copies of certificates of service; copies of correspondence to German courts, bailiffs or administrative agencies stating why documents could not be served or could not be served within a prescribed period; copies of routine or specialized instructions to Judge Advocate offices in the field pertaining to service of documents; copies of correspondence to German courts, bailiffs, or administrative authorities denying requests for service of documents, advising them of the individual's name, grade, social security account number and unit for identification purposes, advising them in accordance with applicable regulations of individual's place of residence in the FRG in connection with requests for execution or attachment, and granting or declining to grant authority to enter premises under the control of the US Forces for the purpose of effecting execution on or attachment of personal property, moneys, etc. in compliance with a writ executable pursuant to German law; card files on each document received identifying nature of document, source of document, dates received, forwarded, and served; date on which certificate of service or other reply to source was dispatched, and full identifying data on the individual.

Authority for maintenance of the system:

The North Atlantic Treaty Organization (NATO) Status of Forces Agreement, the NATO Status of Forces Supplementary Agreement, and administrative agreements executed in implementation or on the basis of the foregoing by which this office is designated as the central liaison agency of the US Forces for service of civil process documents issued by German courts or authorities upon members of the US Army, the US Navy, members of the civilian component of the US Forces, and dependents of the foregoing; Title 10 U.S.C., Section 3012.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Used to establish strict controls on receipt and forwarding for service of German civil court documents on US personnel; to determine if time limits for service of documents as prescribed by NATO Status of Forces Supplementary Agreement have been complied with and to establish a suspense system to insure compliance by Judge Advocate offices in the FRG of service within prescribed time limits; to determine whether initial documents have been served through the agency of this office as a precondition to service of subsequent documents in the same case. Files are maintained and used in this office and in Judge Advocate offices thoughout the FRG to which documents are forwarded for service to insure that US Forces obligations under the NATO Status of Forces Supplementary Agreement are complied with and to insure that rights of individuals are protected. When individual is served the document by the Judge Advocate office in the field, the document is translated for him; its contents and legal effects are explained to him and legal assistance is made available to him to protect his interests and to enable him to avail himself of his legal rights under German law. The card file is used as a locator and control device and is essential when cases are reopened after a period of years. It records whether the individual was served the initial and subsequent documents through the agency of this office and whether the individual, following personal service on him, was afforded the opportunity to contest the initial and subsequent documents or proceedings based on them. The files or information contained in them may be transferred or disclosed to any other agency of the Department of Defense. Information from the files may be disclosed to foreign law enforcement or investigatory or administrative authorities in order to comply with requirements imposed by, or to claim rights conferred in international agreements and arrangements regulating the stationing and status in the FRG of DOD military and civilian personnel. Information disclosed to authorities of the FRG may be further disclosed by them to claimants, creditors or their attorneys. Information may be disclosed in accordance with applicable regulations in response to inquiries from Congressmen or the news media.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

File folders are stored in cabinets by individual's name. Card files are stored in cabinets.

Retrievability:

Filed in alphabetical order by last name.

Safeguards:

Doors to office to hallway and building are locked each night (triple security).

Retention and disposal:

File folders are retained 2 years and destroyed. Card files are retained indefinitely due to the continuing nature of these cases.

System manager(s) and address:

In FRG, Chief, International Affairs Division, Office of The Judge Advocate, HQ, USAREUR and 7th Army, Heidelberg.

In Berlin, The Staff Judge Advocate, HQ, US Army, Berlin, APO New York 09742.

Authority for maintenance of the system:

Executive Order 10450, Sections 2,3,4,5,6,7,8,9 and 14; Title 10 U.S.C., Section 3012(b)(c)(g); National Security Act of 1947, as amended; Executive Order 11652, Sections 1,2,3,4,5,6,7,8,9,10 and 12.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The purposes for which information in the system is collected are as follows:

To conduct personnel security investigations (PSI). A PSI is an inquiry into the activities of the individual which is designed to develop pertinent information pertaining to his suitability for a position of trust. Information is compiled on loyalty, character, emotional stability, trustworthiness, and reliability to insure that an individual's access or continued access to defense information, entry to restricted areas, access to nuclear weapons, security eligibility or acceptability for assignments to or retention in sensitive civilian positions and acceptance or retention as a member of the Armed Forces is clearly consistent with the interest of national security.

To provide protective services when authorized by the Secretary of Defense for the DOD Distinguished Visitors Protection Program. The objective of this program is to provide physical protection for distinguished foreign visitors of DOD and the military departments and high ranking members of DOD and its agencies, and to assist the U.S. Secret Service in its protective functions.

To conduct special investigations as authorized by the Secretary of the Army, which are counterintelligence investigations concerning highly sensitive matters and highly placed persons within the DOD and its agencies.

To conduct limited reciprocal investigations on receipt of an official request from Federal law investigative agencies. These investigations involve the review of DA and military records.

Categories of users of USAINSCOM investigative files are:

USAINSCOM personnel in the course of their official duties.

Other DOD investigative elements, DOD agencies and elements of the Military Departments designated by the departments in official directives or regulations, and accredited representatives of the Secretary of Defense and the Joint Chiefs of Staff.

Accredited Federal criminal and civil law enforcement agencies including those responsible for conducting their own investigations as to suitability for employment or access of current or potential employees formerly affiliated with the DOD.

Other accredited Federal agencies serviced by the Civil Service Commission but with a need to evaluate the suitability of potential employees formerly affiliated with the DOD.

Congress, including the General Accounting Office.

Veterans Administration.

Specific uses of USAINSCOM Investigative Files are:

To determine the loyalty, suitability, eligibility, and general trustworthiness of individuals for assignment or appointment to sensitive military duties or to critical sensitive civilian positions by the first four categories of users, above.

To determine the eligibility and suitability of individuals for entry and retention in the Armed Forces by the first and second category of users, above.

To provide information for ongoing security and suitability investigations being conducted by Federal agencies, by the first three categories of users, above.

To provide information to assist Federal agencies in the administration of criminal justice and prosecution of offenders by the first three categories of users, above.

To provide information in judicial or adjudicative proceedings including litigation, or in accordance with a court order by the first three categories of users, above.

To make statistical evaluations of investigative activities by all categories of users, above.

To respond to legitimate FOIA and PVA access requests by the first category of users, above.

To provide information in response to Inspector General, Equal Employment Opportunity, other complaint investigations and Congressional inquiries by the first and fifth categories of users, above.

To determine the eligibility and suitability of an individual for favorable personnel actions in the Armed Forces of the United States, to include Reserve and National Guard. Unfavorable information may be used as appropriate by personnel decision managers in first and second category of users, above.

For use in alien admission and naturalization inquiries conducted under Section 105 of the Immigration and Nationality Act of 1952, as amended, by the third category of users, above.

For use in benefit determinations by the sixth category of users, above.

The distribution of investigative information to other DA activities or outside agencies is based on this agency's evaluation of their needs and the relevance of the information to the use for which it is provided. Information collected for one purpose is not automatically used for the other purposes or by the other users indicated in this description. Transfer of information from this record system to other DOD components is regarded as a routine intra-agency use under the provisions of Title 5 U.S.C., Section 552a(b)(1).

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Upon receipt of a valid request for an investigation, the request package is given a control number and placed in a case folder (paper record) together with identification data concerning the subject of the request for investigation and the control number. The request is entered into an automatic data processing (ADP) system (USAINSCOM case control system), which is designed to provide statistical data and case control management information on the number and types of investigations that are opened, currently pending, and closed in USAINSCOM. This ADP system triggers automatic requests upon the Defense Central Index of Investigations (DCII), a master index that holds reference to all DOD investigations conducted by USAINSCOM and the Military Services investigative file repositories. If there are files on the subject, a request is generated by USAINSCOM upon the appropriate repository. Upon review of the request package and other investigative files retrieved through DCII, investigative requirements are then determined by the USAINSCOM Control Office and investigative leads are dispatched to the USAINSCOM field elements and other pertinent Governmental investigative agencies. Upon receipt of the investigative leads at the field level, a duplicate investigative file is prepared by the receiving DIS field element. This file contains investigatory report and case control material pertaining only to the specific investigative leads assigned to the controlling field element. At this point the USAINSCOM investigative file enters into a pending status. During this pending status investigative reports are prepared by USAINSCOM field elements and sent to the control office, based upon record and interview data obtained during the investigation. Upon completion of the investigation, the closed investigative file held by the USAINSCOM Control Office is forwarded thru the IRR to the requestor of the investigation. Upon receipt, the requestor adjudicates the investigation and returns it to the IRR for retention. The duplicate files prepared by USAINSCOM field elements are destroyed 120 days after the closing.

Storage:

Paper records in file folders, rolled microfilm, and microfiche.

Retrievability:

File folders are maintained in terminal digit order by regular dossier number and SSN. In order to obtain the dossier number of the subject at least one personal identifier is required. For those subjects who have no identifying data such as date of birth, military service number or SSN, the name only index is searched. Additionally, a non-standard search is required. The name only index will provide a subject's name and dossier number only. The non-standard search will provide a listing of all subjects with identifying data. In these instances, some other identifying data must be furnished such as address. Dossiers possibly identical with the subject may be forwarded to the requester.

Microfiche files are maintained in duplicate copy in separate locations in Microfilm Division, IRR. The records are maintained in terminal digit order according to regular dossier number or SSN.

Microfilm records are retrieved by name or dossier number.

Safeguards:

Building 4552, which houses the IRR, is under 24-hour guard and accessible only to authorized personnel. Only individuals accredited as file procurement officers may obtain and review IRR investigative records. Subordinate USAINSCOM elements and other official requesters are required to have General Services Administration-approved containers for the storage of investigative files. Certified mail is used to forward any investigative files to official requesters of USAINSCOM subordinate elements.

Retention and disposal:

Personnel Security Investigative Files may be retained for 15 years after last action reflected in the file, except that files which resulted in adverse action against the individual will be retained permanently. However, once affiliation is terminated, acquiring and adding material to the file is prohibited unless affiliation is renewed.

Categories of individuals covered by the system:

Any individual, civilian or military, affiliated with the United States Army by assignment, employment, contractual relationship, or as the result of an interservice support agreement on whom a personnel security clearance determination has been completed, is in process, or may be pending.

Categories of records in the system:

File may contain pending and completed personnel security clearance actions on individuals by personal identifying data. Also may contain briefing/debriefing statements for special programs, sensitive positions, and other related information and documents required in connection with personnel security clearance determinations.

Authority for maintenance of the system:

Executive Orders 10450 and 10865; Title 10 U.S.C., Section 3012; Title 50 U.S.C., Section 4039; and the National Security Act of 1947.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

To process request for personnel security clearance actions; to determine eligibility for access to classified information or assignment to sensitive position; and to record security clearance issued or accepted.

Information may be released to other Department of Defense (DOD) and Federal agencies, based on formal accreditation as specified in official directives, regulations, and demonstrated need-to-know; to Federal, State, local, and foreign law enforcement, intelligence, or security agencies in connection with a lawful investigation under their jurisdiction; and to commanders/agency heads for adverse personnel actions such as fraudulent enlistment proceedings, removal from sensitive duties, elimination from the service, removal from employment, denial to a restricted or sensitive area, and revocation of security clearance.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in folders, file cards; computer tape, punch cards, or disks.

Retrievability:

Filed alphabetically by last name of individual or social security number (SSN).

Safeguards:

Records are stored in locked buildings which employ security guards and are subject to Military Police and/or local civilian law enforcement patrol security. All records are maintained in areas accessible only to authorized personnel who are properly screened, cleared, and trained. Use of computers, including remote terminals, requires knowledge of special transaction codes to preserve integrity of data.

Retention and disposal:

Primary system files are destroyed at the same time as the dossier upon which security clearance action was based. Decentralized segment personnel security clearance files are either (1) destroyed upon termination of access, (2) destroyed 1 year from date of transfer or separation of individual, or (3) forwarded to the gaining organization. Investigative reports are forwarded to the United States Army Central Personnel Security Clearance Facility, Ft Meade, MD for inclusion in dossier at the United States Army Intelligence and Security Command (USAINSCOM) Investigative Records Repository (IRR), Ft Meade, MD 20755. Dossiers are maintained no longer than 15 years from date of last entry inless significant adverse information is present, in which case retention is 25 years. Copies of investigative reports are destroyed upon completion of final action.

System manager(s) and address:

A0509.09aDAPE

System name:

509.09 Traffic Law Enforcement Files

System location:

Files are maintained at the installation producing the files. Official mailing addresses are in the Department of Defense (DOD) directory in the Appendix.

Categories of individuals covered by the system:

Any citizen who, at a military installation, registers a privately owned motor vehicle; is subject of a traffic violation/summons; is a subject, victim, complainant or witness to a traffic accident; or has registered to participate in the installation car pool system or has a parking permit issued.

Categories of records in the system:

Files contain: Documents used to register privately owned motor vehicles and to record moving traffic violations and chargeable accidents of individual drivers; accident reports; traffic violation reports, notices and summons; and documents relating to issuance of car pool or individual parking permits. File may be automated as a part of the Vehicle Registration System (VRS) which is a part of the Military Police Management Information System (MPMIS). The registration information may be coded for entry on the master file, normally updated weekly when a part of MPMIS VRS. The master file is management manipulated to produce the following reports: listing of all registrants and their vehicles on an as required basis by decal number, state license number or name; as required, rosters by unit and decal number showing registrants with safety inspections due and those requiring annual verification of DA Form 3626; monthly rosters of registrants with suspended or revoked driving privileges.

Authority for maintenance of the system:

Title 10 U.S.C., Section 3012(g).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Vehicle registration information is collected to assist the commander in carrying out effective law enforcement, traffic safety, and crime prevention programs. Vehicle registration facilitates Department of Army (DA) compliance with Highway Safety Program Standards (Title 23 U.S.C., Section 402) that have been made applicable to federally administered areas. Information is released only to authorized law enforcement agencies upon request. To assist in identification and apprehension of individuals who commit traffic and criminal offenses. Car pool registrations are utilized to assist person(s) desiring to participate in the program, to be identified with other persons within the same residential geographical area to create or join existing car pools. Car pools parking permits are issued and are a means of identifying those vehicles authorized to park in Car Pool Only parking spaces. Information is released only to any law enforcement agency upon request. Traffic violation reports, notices, and summonses are: basis for disciplinary action by commander in accordance with Chapter 47, Title 10, U.S.C., 'Uniform Code of Military Justice'; referred to US Magistrates and US District Courts in accordance with Title 18, U.S.C., Section 13, 'Assimilated Crimes'; and referred to DOD agencies and host State Motor Vehicle Departments for appropriate driver improvement measures including suspension/revocation of driving privilege, remedial driver training, counseling, or rehabilitation/treatment. Accident reports, which include violation data described above, are used to identify factors contributing to the causes of accidents, injuries, and deaths as a means for initiating appropriate measures (engineer, enforcement, educational) to reduce the frequency/severity of accidents occurring on military installations. Accident reports are routinely distributed to commanders, safety directors, facility engineers, and staff judge advocates. Disclosure outside the agency is only made upon request. VRS is used to insure registrants attest to meeting certain insurance standards; to preclude individuals who have suspended or revoked installation driving privileges from operating motor vehicles or who have vehicles that fail to meet vehicle inspection standards; to assist in rapid identification and apprehension of traffic violators; to provide management data on which to base crime prevention, selective enforcement and improved driving safety.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in file folders and card files.

Portions of VRS and index cards may be automated using paper tape, disk, magnetic tape or card.

Retrievability:

Vehicle registrations are filed alphabetically by name and/or by any category of information contained therein; traffic violations are filed alphabetically by name; and accident reports are filed by location of accident. A cross-reference index is maintained.

Safeguards:

Distribution controls are outlined in Army Regulation (AR) 190-45, and only authorized personnel have access to files. Physical security measures include locked containers/storage areas, controlled access, and continuous presence of authorized personnel.

Retention and disposal:

Destroyed after two years or discontinuance, unless transferred with individual upon reassignment.

System manager(s) and address:

Deputy Chief of Staff for Personnel, Headquarters, Department of the Army, Washington, DC 20310, and installation commanders producing the records.

Notification procedure:

Information may be obtained from the command/installation/ activity office of record.

Record access procedures:

Requests for access should be addressed to the command/ installation/activity at which the record is located. Written requests should contain the full name of individual, current address, social security number and specificity as to the information sought.

A0509.19bUSAREUR

System name:

509.19 US Army, Europe (USAREUR) Motor Vehicle Registry Files

System location:

Primary System-USAREUR Motor Vehicle Registry, Army Post Office (APO) NY 09102, Heidelberg, Federal Republic of Germany (FRG).

Decentralized Segments: Temporary Registration Stations, Customer Service Centers Driver Testing Stations, Privately Owned Vehicle (POV) Inspection Stations, and Rod and Gun Clubs. Official mailing addresses are available upon request from the USAREUR Motor Vehicle Registry.

Categories of individuals covered by the system:

Any individual who has requested a service (this includes the sponsor when a dependent requests the service) from the USAREUR Motor Vehicle Registry, e.g., the registration of a POV or a privately owned firearm (POF), or the issuance of a POV operator's license, or any other service performed for individuals.

Any individual who has been reported to have committed an offense which could have resulted in adverse action against their USAREUR POV driving privilege or their declaration of ineligibility therefore in accordance with existing directives.

Any individual who has acquired, legally or illegally, custody or ownership of a POV or POF which was or should have been registered with the USAREUR Motor Vehicle Registry in accordance with existing directives.

Categories of records in the system:

File contains information derived from individual applications to register POV and POF, applications for USAREUR POV operators license, applications for other services provided by the USAREUR Motor Vehicle Registry, and correspondence related thereto; applications include information with respect to the individual (i.e., name, rank, SSN, unit/organization, duty phone, date of birth, place of birth, marital status, accompanied or unaccompanied, whether glasses worn, and driving record), with respect to the vehicle (i.e., make, model, body type, year, color, chassis number, horsepower, insurer, policy number, effective date, lien holder and amount, origin of vehicle, disposition of vehicle, name of buyer), and with respect to a firearm (i.e., manufacturer, type, caliber, serial number, class of registration, origin, disposition, and name of buyer); information derived from reports issued by US military or host country authorities which, in accordance with existing directives, concern an offense or circumstances for which action against the USAREUR POV or POF registration or the USAREUR POV driving privilege may be or has been taken; and information concerning the transfer of ownership of POV or POF which have been or should have been registered with the USAREUR Motor Vehicle Registry in accordance with existing directives.

Manual backup is maintained of: (1) POV registration applications, supporting and related documents and correspondence - filed by registration number; (2) POV operator license applications and related documents and correspondence-filed partially by operator license number and partially alphabetically by last name of individual; and (3) POF applications-filed alphabetically by last name of individual.

The file also consists of certain manually-maintained records which are comprised of correspondence between the USAREUR Motor Vehicle Registry and individuals, groups, agencies, activities or other collective bodies - these are filed chronologically by category.

Manual records are also maintained for access to USAREUR Motor Vehicle Registry files and related processing papers.

Authority for maintenance of the system:

Title 10 U.S.C., Section 3012; Secretary of the Army: powers and duties; delegation by.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Purpose of the files are to (1) establish prima facie ownership of POV or POF (2) determine registration status of POV and POF, insurance and lien status of POV, and licensed status of POV operators; and (3) record driving history of vehicle operators.

Offices within the USAREUR Motor Vehicle Registry use the information: (1) to evaluate and process applications for registration of POV and POF and applications for issuance of USAREUR POV operators license; (2) for locator purposes; (3) to insure compliance with existing regulations pertinent to the registration of POV and POF; (4) to take or recommend action against individuals whose driving history reflects adversely against their driving ability or performance or when conditions occur which require that action be taken to comply with existing regulations or host country laws; (5) to notify commanders, supervisors, or other responsible agencies when a violation of existing regulations has occurred; (6) to respond to requests for identification, registration, insurance and lien data concerning POV, POF and their owners, and licensed status of POV operators received from authorities of US Forces, from government agencies of Germany and other foreign countries, or from verifying authorities, attorneys, lien holders, prospective lien holders, prospective POV purchasers, or insurance companies; (7) to enable fulfillment of requests received from individuals for miscellaneous services performed by the USAREUR Motor Vehicle Registry within the scope of the registry function.

Commanders and supervisors use information provided to detect, investigate and evaluate alleged or suspected offenses, and when appropriate, to support administrative or disciplinary action against offenders, and to assist personnel with problems.

Authorities of the US Forces and other governments use information provided for law enforcement and investigative purposes, to support requests for services from US Forces personnel, to establish insured status of POV and POV operators, to aid in establishing identification of an individual, and to comply with requirements imposed by, or to claim rights conferred in, international agreements and arrangements regulating the stationing and status in foreign countries of DOD military and civilian personnel.

Attorneys use information to aid them in civil and criminal proceedings on behalf of a client.

Lien holders use information provided to assist in determining compliance with terms of contracts and agreements.

Insurance companies use information provided to validate compliance with terms of contracts, to terminate contracts for cause (cancel insurance); and to determine insured status of POV and POV operators, or to identify a POV owner, on behalf of a client.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Computer disks, computer magnetic tapes, computer paper printouts, computer punch cards, paper records in file folders, application forms and supporting documents and related correspondence in file trays and cabinets, and microfiche.

Retrievability:

Indexed by computer alphabetically by last name, social security number, POV chassis number, POF serial number, POV operator's license number, POV registration number, and by MP or CID report number.

Manual backup records are filed by POV registration number, by POV operator's license number (however some operator's licenses will be filed alphabetically by last name until 1980), and by last name of POF registrants.

Safeguards:

Building has employees who make periodic and scheduled security checks. Records are maintained in areas accessible only to authorized personnel who are screened, cleared and trained. Computer programs have safety checks, validation code systems, and editing procedures.

Retention and disposal:

POV Registration Files: Automated files are cleared and manual files are destroyed three years after the end of the year in which final disposition of the license plates occurred (e.g., plates destroyed, cancelled or replaced or POV shipped outside of FRG).

POF Registration Files: Automated files are cleared and manual files are destroyed five years after the end of the year in which registration expired or was cancelled.

POV Operator License Files: Manual files are destroyed at the end of the year in which expiration occurred, and computer is cleared three years after the end of the year in which expiration occurred, except that both files may be transferred to Driving History Files when the license has been revoked or suspended or the individual has been declared ineligible to receive a license.

Driving History Files: (1) Records reflecting chargeable nonfatal traffic accidents/moving violations: automated files are cleared and manual files destroyed 3 years after the end of the year in which the accident/violation occurred; (2) Records reflecting nonmandatory suspensions or revocations; automated files are cleared and manual files are destroyed 5 years after the end of the year in which the suspension or revocation was imposed: (3) Records reflecting mandatory revocations or declarations of ineligibility to receive a license; automated files are cleared and manual files are destroyed 7 years after the end of the year in which revocation or declaration of ineligibility occurred.

Manual files concerning requests for services are destroyed two years after the end of the year of accumulation.

Manual files relative to applications for access to USAREUR Motor Vehicle Registry files are destroyed 5 years after the end of the year of accumulation.

System manager(s) and address:

Commander in Chief, US Army, Europe and Seventh Army, APO NY 09403.

Notification procedure:

Requests from individuals should be addressed to the Registrar, USAREUR Motor Vehicle Registry, APO New York 09102

The Duty-Free Inspection File applies to all individuals who move household goods and/or hold baggage out of Thailand at US Government expense.

Categories of records in the system:

Major Item Ration Control Printout: Normally updated quarterly. The master file is used to produce the following reports: listing on an 'as required' basis of all major TRE purchases made by an individual.

The commissary printout: Produced on a monthly basis. This printout is used to produce a listing of individuals overspending their monthly dollar amount in the commissary.

The PX, Commissary, Class VI Questionnaire file: Normally updated monthly. It is used to issue ration control cards on a semiannual basis; record all requests for supplemental purchases, items under control of the MACT Form 120, and major household appliance purchases.

PACEX catalog purchase file: Normally updated quarterly. It is used to produce a listing of all items purchased by an individual from PACEX on an 'as required' basis.

Ration Control Registers are produced seminannually and are used for control of MACT Forms 36S, 36D, 36U, 81 and 57.

Duty-Free Inspection File is updated daily and is used to provide information on proper disposition of duty-free merchandise.

Authority for maintenance of the system:

Title 10 U.S.C., Section 3012.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

All systems are used to assist military police (MP), USACIDC, OSI, and MACTHAIJ1 in preventing blackmarket activities in Thailand; to preclude individuals who have had their ration control privileges suspended or revoked from using US duty-free outlets in Thailand; to comply with the Royal Thai Government's requirement that adequate controls be in effect on the sale of duty-free merchandise; to comply with USMACTHAI Regulation 60-1 in adequately controlling ration cards.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Major Ration Control Printout is stored on computer paper at USMACTHAI Ration Control Office, USACIDC office, and OSI office. Commissary, Cosmetic, Master 81, PACEX printout are stored on computer paper at the USMACTHAI Ration Control Office. The PX, Commissary and Class VI file and Duty-Free Inspection File are stored in file folders and maintained at the Installation Ration Control Office.

Retrievability:

Information on the printouts is retrieved by social security number (SSN), and by Ration Control Unit Number. Information on PX, Commissary, Class VI file is retrieved by Name and Unit. Information on Duty-Free Inspection File is retrieved by Name.

Safeguards:

All systems are controlled by the Ration Control Officer and information is released only to individuals working directly with ration control and on a need-to-know basis. All systems are kept in locked cabinets in locked rooms after duty hours.

Retention and disposal:

An individual's record is maintained in all systems as long as the individual is stationed in Thailand and for a period of 6 months after his departure. Because the major ration item control printout is updated quarterly, individual records are deleted only 4 times a year. Individual's records in commissary and cosmetic computer printouts are maintained for a period of 5 months. Individuals are automatically dropped from the printouts when they are no longer in Thailand to make duty-free purchases. When a record is no longer needed it is shredded.

Primary System: Casualty Services Office, Casualty Directorate, The Adjutant General Center, Department of the Army (DA).

Decentralized Segments: Military Personnel Records Jacket (MPRJ), maintained at Army personnel offices world-wide.

Categories of individuals covered by the system:

All military personnel on active duty.

Categories of records in the system:

File contains DA Form 41, Record of Emergency Data (1 Apr 74 or 1 Jul 70 edition). Document reflects the service member's name; social security number (SSN); wife and children's names and current address; persons to be and not to be notified in the event of death or injury; information on wills, insurance, and other such information; and designation of beneficiaries for certain benefits.

Authority for maintenance of the system:

Title 10 U.S.C., Section 3012.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Casualty Services Office: When properly completed, it is an official and legal document that governs the disposition of pay and allowances of a member who is missing, is captured, or becomes a casualty. It is also used to determine the person(s) to receive death gratuity payments and beneficiary(ies) to receive other benefits. The form provides the names and addresses of the person(s) to be notified in case of emergency or death.

MPRJ: Copy serves the same purposes as stated above in the event the record copy can not be located.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Original (machine processed card) in vertical file.
Paper copy in MPRJ.

Retrievability:

Card is filed numerically using SSN. File is sorted initially by last digit of the SSN, then in numerical sequence. Paper copy located at unit level is fastened on the left side of the MPRJ.

Safeguards:

Building employs security guards. Office is in operation 24 hours a day, 7 days a week. Records are accessible only to authorized personnel.

Retention and disposal:

Form is retained in the DA active file until individual's separation from the Army, then destroyed. Copy in personnel folder remains with file when records are retired. If individual dies, the form is placed in the casualty case file. Casualty case files are retired upon completion to National Personnel Records Center (Military), St Louis, MO 63122.

Administration includes control of promotions, transfers and other day-to-day actions in addition to maintaining unit readiness which includes identifying training needs and assuring that needs are filled on a continuing basis.

A copy of each Army file is sent to USARCPAC on a monthly basis for reporting purposes. Statistical reports are prepared at USARCPAC for use by various Department of the Army (DA) and Department of Defense (DOD) Staff Agencies. The main users of this report are: The Office of Chief, Army Reserve; Headquarters, US Army Forces Command; Headquarters, Continental US Armies, Office of the Chief of Chaplains, and Office of the Deputy Chief of Staff for Personnel (DCSPER). Uses include: strength accounting, budgeting, readiness in case of mobilization of reserve units, and forecasting of future needs based upon expected attrition. In addition, the Command Involvement Program (CIP) computer system inspects the personnel data contained in each record and reports percentage of accuracy and completeness to the unit commander and his superiors.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

File is stored on computer magnetic tapes and in air- conditioned libraries.

Retrievability:

File is sequenced by SSN. To retrieve an individual's record, an authorized requester must enter SSN, five characters of last name, unit identification code, military personnel class (indicates individual is an officer, warrant officer or enlisted), and a particular code identifying the transaction as a record request.

Safeguards:

Tape files are stored on tape racks in reel number sequence in a restricted library within the computer room complex which is a restricted area. In addition, the building housing the computer room is restricted to authorized personnel.

Retention and disposal:

A record is retained for the duration of the reservist's unit assignment. The current and 2 previous tape files are retained at any given time. Upon creation of a new file, the oldest file is erased.

System manager(s) and address:

DCSPER, The Pentagon, Washington, DC 20310.

Notification procedure:

To ascertain if the tape file contains data on a particular individual, the individual should write or visit the Headquarters of the Continental US Army area in which his/her unit is located.

Record access procedures:

To request access to the information contained on this tape file, the individual should write or visit the Headquarters of the Continental US Army in which his/her unit is located.

Contesting record procedures:

The Army's rules for contesting contents and appealing initial determinations may be obtained from DCSPER (DAPE-PBP), The Pentagon, Washington, DC 20310.

To obtain views and recommendations, as required, from other governmental activities within their area of responsibility, including The Attorney General and other law enforcement agencies in those cases alleging acts of force or violence and criminal conduct deemed to be so serious as to warrant continued investigation or possible prosecution.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in files, card indexes, computer magnetic tapes/disks, computer punch cards, and computer printouts.

Retrievability:

By name, SSN or service number, case number or other individually unique identifier assigned the record. Case Summary may be grouped by military service Discharge Review Board and thereunder filed alphabetically by name, case number, SSN or service number, or by other appropriate identifier.

Safeguards:

Manual records are stored in buildings which employ security guards; records are accessible only to authorized personnel.

Automated records are under the control of a cardkey access system which requires positive identification and authorization, and are located in a designated controlled area to which access is limited to selected personnel only.

Retention and disposal:

Final determination and associated supporting documentation incorporated into the Official Military Personnel Folder of the Army member and returned to NPRC, GSA upon completion of action by the Discharge Review Board. Copy of case data summary sheet for each former military service member (Army, Navy, Marine Corps, Air Force) and copy of a comprehensive final report by each military service upon completion of the program will be retained by the Army Council of Review Boards for a period not yet determined.

Automated record information retained for 5 years or until such time as necessary to complete all special Discharge Review Board program actions and attendant administrative matters associated with accounting, reporting, and historical file maintenance in support of DOD requirements. Subsequently destroyed.

System name:

807.01 MCT USAR Civilian Technician System

System location:

Primary System: Systems Support Directorate, United States (US) Army Reserve Components Personnel and Administration Center (USARCPAC) (Field Operating Agency of The Adjutant General's Office, Department of the Army), 9700 Page Boulevard, St Louis, MO 63132.

Decentralized Segments: Office of Chief Army Reserve (OCAR), and Department of the Army Staff (DAS) agencies and commands.

Categories of individuals covered by the system:

Any person who is currently employed as a US Army Reserve Civilian Technician.

Categories of records in the system:

File contains personnel identification data to include name and social security number (SSN), and work status data concerning job category, grade, assigned work station and location. If personnel are members of the US Army Reserve (USAR), data on reserve assignment and reserve grade are also carried.

Authority for maintenance of the system:

Title 10 U.S.C., Section 275.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

USARCPAC: Receive raw input data from USAR Commands, maintain the centralized data processing system and produces and distributes reports to the users. Is the computer processing support agency; does not utilize or dispense data to other than officially designated agencies.

USAR Commands: To obtain current management data to administer to technicians assigned within their command.

OCAR: To monitor the overall program and to provide policy guidance and budget planning for the program.

Other DAS agencies and commands: To provide data for inclusion in training and mobilization plans.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Stored as computer tape and paper printout.

Retrievability:

Sequenced numerically by SSN within unit identification code of unit to which assigned.

Safeguards:

Security guards limit access to the USARCPAC. Magnetic tape files are maintained in a library by reel numbers; access to a specific file must be determined by responsible scheduling personnel. In addition, basic file characteristics must be programmed into access programs before individual data records can be referenced.

Access to hardcopy listings is limited to employed personnel with a job related need-to-know requirement at the OCAR, USAR Commands, and other DAS agencies and commands.

Retention and disposal:

The automatic data processing system at the USARCPAC requires records to be maintained on an evolutionary schedule; a record is created upon hiring and is eliminated when employment is terminated. Tape files are retained for 60 days; tape files are retained in a tape library through 3 processing cycles, a creation cycle, for use as the current file in next creation cycle and then as the emergency backup file.

Printed reports/listings are maintained at the OCAR, USAR Commands, and other DAS agencies and commands until superseded by the next edition.

Outpatient Patient Dietary History Records may be maintained either in the Clinical Dietetics Branch or the Department of Clinics, dependent upon local organizational structure.

Patient Dietary History Records may also be maintained in those health clinics which have a consultant dietetian. Official mailing addresses for all hospitals, medical centers and health care clinics are in the Department of Defense (DOD) Directory in the Appendix.

Categories of individuals covered by the system:

Individual patient diet files may be maintained on any individual authorized inpatient or outpatient medical care in army medical treatment facilities.

Categories of records in the system:

The Individual Patient's Diet File would normally include, but not be limited to, the Patient Dietary History Record, Consultation Sheets (Standard Form (SF) 513), prescriptions for nutritional care, patient satisfaction surveys, dietary intake and analyses records, dietetic progress notes, menu patterns and special nourishment or feeding information.

Authority for maintenance of the system:

Title 5 U.S.C., Section 301;Title 44 U.S.C., Section 3101; and Title 10 U.S.C., Section 1071.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The information collected is used by the personnel assigned to the Clinical Dietetics Branch or health clinic for the purpose of assisting the nutritional well-being of the patient and developing a plan for nutritional care. This information also serves to improve the quality of nutritional care rendered. Access to these records is limited to a need to know basis, i.e., to dietetians, dietetic technicians, diet aides, patient tray service personnel and to clerical personnel involved in maintaining the records. For both inpatients and outpatients, nutritional care plans and/or diet instructions are developed from this information by the users as required. For inpatients, in addition to the nutritional care plans, daily menus are prepared and trays are set up in accordance with the menus by the users for the patients.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

The Patient's Dietary History Record is normally stored in a visible card file or card file box. Additional or supplemental information is usually stored in file folders in desks or file cabinets.

All individuals eligible for Army military medical care.

Categories of records in the system:

Files contain Family Record Form (Department of the Army (DA) Form 3762) and Case Referral Form (DA Form 3763) which are documents used in patient and family health care provided by Army community health nurses.

Authority for maintenance of the system:

Title 5 U.S.C., Section 301; Title 44 U.S.C., Section 3101; Title 10 U.S.C., Section 1071, Medical and Dental Care, Purposes.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

A family record is initiated on each family receiving Army community health nursing supervision. This record provides a means for recording family identification, health and socio-economic data and nursing services rendered to patient and family. It assists the nurse in identifying patient and family needs and in planning and evaluating their care. Records include the source of referral, medical diagnosis, observations, nursing care rendered and plan and goals for nursing care. Record also includes brief summarization of consultations made in behalf of the patient of family and of advice provided telephonically to patient or family member that has significant health impact to that patient or family group. The primary users of this record are Army community health nurses. Pertinent information is shared with medical and allied medical personnel to provide continuity of health care.

Case referral form provides a means for medical and allied medical personnel to refer individuals and families for Army community health nursing services. The Army community health nurse may use this form to refer patients to other military and civilian health and welfare agencies or to Army community health nurses at other military installations. A case referral which contains medical information requires written consent of the patient or legal representative prior to release to a civilian agency. A doctor's signature is required when medications and/or treatments are ordered. This form initiated primarily by Army community health nurses helps to provide continuity of care, minimizes duplication of effort and furnishes accurate information to other health care providers.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Both forms/records are stored as paper records in file folders. The Family Record is filed alphabetically in the Army community health nursing office. Closed records are filed in the inactive section. Both forms/records are handled so as to preclude access by unauthorized personnel. When requested, summary of family health record is sent to another military medical installation. The case referral form is prepared by the medical or allied health care provider. After acting upon the request, recipient records findings and recommendations on the reverse of the form. A copy of completed form is returned to the initiator and filed in the patient's outpatient medical record. Another copy is retained in the Army community health nursing files. If a family record is initiated, the referral is filed with the family record.

Retrievability:

Filed alphabetically by last name of eligible military/retired sponsor.

Safeguards:

Army community health nursing offices are locked during nonduty hours. Records are maintained in areas accessible only to authorized personnel, i.e., Army community health nurses and trained and supervised clerks and non professional health care providers assigned to the health nursing section.

Retention and disposal:

Both records/forms are retained in active file as long as nursing service is provided to patient and family group. Both records/forms are destroyed 3 years after the case is closed.

Categories of records in the system:

File contains Family Index Forms (Department of the Army (DA) Form 3760) which is used by Army community health nurses to determine case load by program classification and for scheduling provision of health nursing care.

Authority for maintenance of the system:

Title 5 U.S.C., Section 301; Title 44 U.S.C., Section 3101; Title 10 U.S.C., Section 1071.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

A Family Index Form is initiated for each family in which at least one family member is receiving Army community health nursing care. This form provides a means of identifying families receiving health nursing supervision. It assists in determining numbers of families or individuals within family groups obtaining health nursing care according to program classification and is used as a method of scheduling this care based on a locally determined system of priorities. Program classifications are maternity, health promotion and disease control.

Family Index Form is used only by the Army community health nursing staff, which includes registered professional nurses and specially trained non professional health care workers, military as well as civilian.

The Army community health nursing staff utilizes this form as a tickler file to serve as a reminder of services needed at a particular time.

Categories of individuals covered by the system:

Students enrolled in kindergarten thru 12th grade attending schools as listed above.

Categories of records in the system:

Recorded in this system is the school health record form (DA Form 4112) which is used to record pertinent data concerning a student's health.

Authority for maintenance of the system:

Title 5 U.S.C., Section 301;
Title 10 U.S.C., Section 1071;
Title 44 U.S.C., Section 3101: Records Management by Agency Heads.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Recorded data assists school and medical personnel in providing and evaluating school health services as well as the needs of the student.

Identifying information, health history and types and dates of immunizations are obtained from parents and entered on the form.

Results of physical examination and screening tests are entered at time of examination.

Nurse: student visits and consultations with parents, school personnel and other appropriate individuals in behalf of the student are recorded on reverse side of the form.

Primary users of this form are professional dependent school and specially trained medical personnel. Occasionally it is necessary to disclose all or some data found in the school health records to include but not limited to law enforcement agencies, protective services or similar health and welfare institutions.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Generally, record stored in paper records by school classes and retained in school nurse's office.

Records are filed so as to preclude access by unauthorized personnel.

In some cases, permanent copy of record is filed with rest of family records in the medical treatment facility outpatient record room, while a copy of the school health form is filed as described above.

Retrievability:

Filed alphabetically by last name of student and school grade.

Safeguards:

Files stored in locked cabinets and office doors locked when school is not in session.

Professional dependent school and specially trained medical personnel are only individuals who have access to this information.

Retention and disposal:

Record remains in school nurse's office as long as student remains in that school. When child is transferred to another school, the record is given to the parent to deliver to the next school.

System location:

Training Section, Management Branch, Management and Administrative Support Group, United States Army Management Systems Support Agency (USAMSSA), DACS-AMD-B.

Categories of individuals covered by the system:

All personnel of the USAMSSA.

Categories of records in the system:

The personnel file contains data to include social security number (SSN), employee's full name, place assigned, grade, function code, level code, military occupational specialty (MOS) or series number, education, degree, date assigned to USAMSSA, street address, home phone, office phone, date of birth, courses taken or scheduled and planned, and cost of course.

The course catalog file contains data to include titles of courses, vendor code, vendor name, length of courses, cost, scheduled dates of courses.

Authority for maintenance of the system:

Title 5 U.S.C., Chapter 41; Executive Order 11348.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

The purpose of SMART is to collect personnel and course data to establish a data base for use in managing the USAMSSA management information requirements pertaining to training.

Supervisors and Individuals: Individual training plans extracted from data base provide a report of the subjects each individual should complete to fully accomplish the functional level of the job presently holding. This report is used in the development of a training projection and an individual career training program. This plan is used to assist supervisors and individuals in identifying required training, developing a training plan for each individual, and providing a record of training for each person assigned to USAMSSA.

Supervisors: Training reports are provided to each level of management which show the courses that have been projected for each individual and another report which shows how many people are projected to take the courses required. Two alphabetical telephone listings are provided. One listing shows the/home telephone numbers of all USAMSSA personnel and is distributed only to key personnel within USAMSSA who have a need for this information in the performance of their official duties. The other telephone listing identifies the office phone extension for each person assigned to USAMSSA and is distributed down to section level. The personal information is used in the preparation of nomination documents for approval of training conducted within Department of Defense (DOD) or at another Federal agency.

Storage:

Computer magnetic tapes or disks and computer paper printouts.

Retrievability:

Individual records may be retrieved by SSN.

Safeguards:

Random number sign on authentication for each inquiry made to the system is required. SIGNON decks to enable such access are updated weekly, safeguarded under Army Regulation (AR) 380-5 due to their Confidential classification and are unique to one TREDS terminal only. Access is granted only designated personnel at Headquarters TRADOC and Army Service Schools responsible for the administration and processing of resident students.

Retention and disposal:

Machine records are retained during student's entire enrollment, which can vary from a few weeks to a year, depending on the course length. After a course has been completed, the student's record is transferred to the Academic Records System (ARS) History File where his records are maintained indefinitely. Also upon graduation, a hard copy transcript reflecting the student's personal and academic data is produced. The hard copy is retained by the service school for 4 years, then it is transferred to a records holding area on the installation housing the service school and retained for 2 years. It is then transferred to the National Personnel Records Center, St. Louis, MO, where it is retained for 34 years, then, destroyed.

Active duty military personnel who have participated in the General Educational Development (GED) Program.

Categories of records in the system:

Listing contains name, grade, social security number (SSN), military address, GT score, education level, type of parti- cipation, date and Education Branch activity initiating the participation.

Authority for maintenance of the system:

Title 10 U.S.C., Section 3012, 'Secretary of the Army: Powers and Duties; delegation by.'

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Used by the Education Branch to derive data for Education Services reports required by Army Regulation (AR) 621-5 and to derive management data on program effectiveness.

Purpose of decentralized system is to inform commanders of Education Program participation by members of their units.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Computer paper printouts in binders or paper records in file folders.

Retrievability:

Filed by military address, type of participation and name and SSN of participant.

Individual records are retrieved by use of name or SSN.

Safeguards:

Records are maintained in an area accessible to authorized and trained personnel only. They are maintained in locked cabinets, safes or vaults when not in use.

Retention and disposal:

Records are destroyed when superseded, obsolete or no longer needed for reference.

System manager(s) and address:

Education Services Officer or Education Officer at installations having an Education Program.

Notification procedure:

Information may be obtained from the SYSMANAGER.

Written requests for information should contain the full name of the individual, current address and telephone number, and any other personal identifying data which would assist in determining the identity of the requester.

For personal visits, the individual should be able to provide some positive identification (driver's license, identification card) and give some information that could be verified within his 'CASE' folder.

Record access procedures:

Written requests should contain the name, SSN, date of participation, military address at time of participation in the Education Program.

Personal visits are limited to the Administrative Office of the Education Branch. Individuals should be able to provide identification and give some verbal verification of the informa- tion in file folder.

Contesting record procedures:

The Army's rules for access to records and for contesting contents and appealing initial determinations are contained in Army Regulation 340-21.

System name:

1014.08 College Transcript Registry System

System location:

Primary System: American College Testing Program (ACT), PO Box 168, Iowa City, IA 52240.

Decentralized Segments: Education Directorate, The Adjutant General Center (TAGCEN), Forrestal Building, Washington, DC 20314; Army Education Center, Ft Eustis, VA 23604; and Army Education Center, Ft Polk, LA 71459.

Categories of individuals covered by the system:

All military personnel assigned or attached to Fts Eustis and Polk who have participated in the Army Continuing Education System and who have attended Army service schools.

Categories of records in the system:

Records include Education Services Officer File, Course/Test File, Soldier File, Confirmation Rosters - Courses, Confirmation Rosters - Tests, separation lists, and correspondence or documents containing similar or related information.

The Soldier File contains the following information: name, social security number (SSN), date of birth, racial/ethnic data (optional), sex (optional), pay grade, unit number, primary and secondary military occupational specialties, and record of each course or test the individual has taken -- in the form of course/test number, test scores, and education services officer identification code.

Separation lists contain home addresses.

Authority for maintenance of the system:

Title 10 U.S.C., Section 3012.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Purpose of the system is to provide a transcript, properly authenticated and endorsed by an independent agency recognized by the academic institutions, to the individual or to academic institutions, or other agencies designated by the affected member to allow advanced placement of the individual in an educational program, which precludes a retake of basic college courses; for verification of training and experiences recognized by the civilian labor market; and to conduct research.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Records are stored on computer magnetic tapes and drums at ACT and TAGCEN.

Paper records in file folders, cards in card files, and computer printouts may be filed at any/all locations participating in the system.

Retrievability:

Records are retrieved by SSN and name or by one, or a combination of, data elements contained in the system.

Safeguards:

At ACT the physical security of the registry data is guarded in a variety of ways. Data are collected and distributed via first class

mail. The data-collection forms are retained in security containers for a year after the data have been entered into the system. All programs and data files are kept in a secure environment, which includes closed-circuit video monitoring, the use of identification cards and passes, with restricted areas (such as the tape library) open only to certain employees. The building also includes fire detection and suppression equipment.

At other locations buildings employ security guards. Records are maintained in areas accessible only to authorized personnel who are properly screened, cleared, and trained.

Retention and disposal:

Data-collection forms and related correspondence are destroyed 1 year after data are transferred to the register. The individual record will be dropped from the active register when there are too few event segments (records of courses/tests taken) for an individual in any given quarter or the individual is separated from the Army. No data for persons with too few event segments will be kept. Data on separated individuals will be stored on an inactive register, retained at ACT for 3 years, transferred to TAGCEN, held for 10 years and destroyed. (This retention period is subject to approval by the National Archives and Records Service.)

Categories of individuals covered by the system:

Persons submitting unsolicited inventive proposals to Army agencies.

Categories of records in the system:

Inventive proposals (other than those arising under contract, from performance of official duty, or in response to a solicitation by the Army) which have been individually submitted to an Army agency for evaluation, together with resultant evaluation reports and correspondence. Proposals are limited to those involving processes, machines, manufactures, compositions of matter, and improvements thereof which are or may be patentable.

Authority for maintenance of the system:

Title 5 U.S.C., Section 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Inventive proposals are evaluated by technical personnel of the Army and other Governmental agencies to determine whether the proposal is technically feasible, meets military requirements, and should be accepted. Files are retained by the agency as a record of the proposal and of action taken thereon. Later proposals and claims for patent infringement may be cross checked with the records.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Paper records in file folders.

Retrievability:

Name of the person submitting the proposal.

Safeguards:

Various Federal buildings employ security guards. Records are maintained in file cabinets accessible only by authorized personnel who are properly instructed in the permissible use of the information.

Retention and disposal:

System location:

United States (US) Army Medical Research Institute of Infectious Diseases (USAMRIID), Ft Detrick, Frederick, MD 21701.

Categories of individuals covered by the system:

Military and civilian employees of Ft Detrick engaged in research who have been immunized with a biological product or who fall under the Occupational Health and Safety Act or Radio- logic Safety Program.

Categories of records in the system:

File contains name of biological agents, name, social security number (SSN), age, race, date of birth (DOB), occupation, titers, immunization schedule, known allergies, amount of dosage, reaction to immunization, radiologic agents, exposure level, health screening test results, health test schedule.

Authority for maintenance of the system:

Title 5 U.S.C., Section 301; 1943 Executive Order 9397.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Information is used for two primary purposes: To create a large data base of immunological data for research purposes, and to manage the scheduling of all the health screening tests, immunizations, physicals, and other special procedures required by USAM-

V 44 DE 1 7 7 9 UMI

RIID's biosurveillance program, radiologic safety program, and occupational health and safety program.

Scheduling documents are handled by ward clerks and the immunization nurse. Access to immunological data is given to the immunization nurse, the ward physician, and other interested professional investigators.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Files are maintained on random access disk files, card files and backed up on magnetic tape. Computer paper printouts are also required by the system users.

Retrievability:

For research purposes, the data are usually retrieved and analyzed with respect to relative times, vaccine lots, titers, demographic values, etc. The data are seldom retrieved by name of individual or SSN.

The schedule data are retrieved by name, by test to be taken, and by month of scheduled examinations.

Safeguards:

Files are maintained in a controlled area in the computer center at Walter Reed Army Institute of Research.

Files at USAMRIID are maintained in a building which is locked at night with periodic patrols by security personnel. Access during duty hours is by authorized personnel only.

1401.08 Alphabetical Library Borrowers' File

System location:

Libraries on all Army installations. For installation address see the organizational directory in the Appendix to these system notices.

Categories of individuals covered by the system:

Active and retired military and civilian personnel (including dependents of military) and all other authorized patrons of Army library facilities.

Categories of records in the system:

File contains a record showing name, address, social security number (SSN) and telephone number, which is used for patron registration and record of library materials loaned.

Authority for maintenance of the system:

Title 10 U.S.C., Section 3012 and Title 5 U.S.C., Section 301.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

To fully identify every patron authorized to borrow library materials when materials are charged out of the library. As library meterials become overdue for return, overdue notices are sent to the patrons at the military or civilian address, as appropriate, depending on the status of the patron. Used as a means of assuring that all installation property has been returned and that the individual's account is clear in conjunction with the installation clearance system. May also be used to prepare a written report to the installation commander, if the individual refuses or fails to make restitution for negligently lost, damaged or destroyed library materials, and for taking action as may be deemed appropriate to achieve restitution. It is also used to advise patrons when specific information or materials requested are available. It may be used for recording in library use of equipment as head sets, typewriters, and cassette players.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

Card files, magnetic tape, computer printouts.

Retrievability:

File alphabetically by patron's surname.

Safeguards:

Files are maintained in areas accessible only to auth- orized personnel who are properly instructed in the permissible use of the information. Library is secured during non-duty hours.

Retention and disposal:

Records are routinely destroyed upon clearance of the individual involved.

System manager(s) and address:

The Adjutant General, Headquarters, Department of the Army (DAAG-RE), Washington, DC 20314.

Notification procedure:

Requests should be directed to the specific library involved.

Record access procedures:

Written requests should be addressed to the librarian of the library having the record and should contain the full name, rank, and SSN of the individual.

DEFENSE MAPPING AGENCY

HOW SYSTEMS OF RECORDS ARE ARRANGED. The Defense Mapping Agency records are grouped by subject series. Each series has records about a specific activity or function to which a subject title and number is given. Systems or records are grouped in the same way. For example, a system of records on personnel security clearances may be found in Personnel Security Files - B0504-01 and one about equal employment opportunities may be found in Equal Employment Opportunity Reporting Files - B0605-01. These numbers are part of the system identifica tion (ID) which precede the notices in the Federal Register. They look like this: B0504-01 HQ,HT,A; B0605-01 HQ,HT,A,S,I. The letter B means Defense Mapping Agency. The first four digits (0504 and 0601) show that the records pertain to Personnel Security and Equal Employ ment Opportunity respectively; and the last two are a further breakdown of the series. The letters that follow these numbers are internal management accounting devices only. Other systems of records which differ from these examples but have similar documents may also be found in the same series.

HOW TO USE THE INDEX GUIDE. The systems of records maintained by the Defense Mapping Agency are contained within the subject series that are listed below. This list identifies each series in the order in which it appears in this issuance. Use the list to identify subject areas of interest. Having done so, use the series number (for example 0504 for Personnel Security) to locate the systems of records grouping in which you are interested.

other pertinent personal information as may be required, to locate and retrieve the record.

BLANKET ROUTINE USES

Certain blanket 'routine uses' of the records have been established, that are applicable to every record system maintained within the Department of Defense, unless specifically stated otherwise within a particular record system. These additional blanket routine uses of the records are published below, only once in the interest of simplicity, economy and to avoid redundancy, before the individual record system notices begin rather than repeating them in every individual record system.

ROUTINE USE - LAW ENFORCEMENT

In the event that a system of records maintained by this component to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

ROUTINE USE - DISCLOSURE WHEN REQUESTING INFORMATION

A record from a system of records maintained by this component may be disclosed as a routine use to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a component decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

ROUTINE USE - DISCLOSURE OF REQUESTED INFORMATION

A record from a system of records maintained by this component may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

REQUESTING RECORDS

Records are retrieved by name or by some other personal identifier. It is therefore especially important for expeditious service when requesting a record that particular attention be provided to the Notification and/or Access Procedures of the particular record system involved so as to furnish the required personal identifiers, or any

ROUTINE USE - CONGRESSIONAL INQUIRIES

Disclosure from a system of records maintained by this component may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

ROUTINE USE WITHIN THE DEPARTMENT OF DEFENSE

A record from a system of records maintained by this component may be disclosed as a routine use to other components of the Department of Defense if necessary and relevant for the performance of a lawful function such as, but not limited to, personnel actions, personnel security actions and criminal investigations of the Component requesting the record.

ROUTINE USE - PRIVATE RELIEF LEGISLATION

Relevant information contained in all systems of records of the Department of Defense published on or before August 22, 1975, will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular A-19 at any stage of the legislative coordination and clearance process as set forth in that Circular.

ROUTINE USE - DISCLOSURES REQUIRED BY INTERNATIONAL AGREEMENTS

A record from a system of records maintained by this Component may be disclosed to foreign law enforcement, security, investigatory, or administrative authorities in order to comply with requirements imposed by, or to claim rights conferred in international agreements and arrangements including those regulating the stationing and status in foreign countries of Department of Defense military and civilian personnel.
